  - Process Improvement
  - MRC
  - CMill

Active Working Groups/Mission Statements

- **Validation**
  - Develop a standard validation approach, establish validation candidate selection criteria, reduce redundancies and standardize reporting of results.
- **Roles and Responsibilities**
  - Identify and review CDM and ISEA roles and responsibilities, both present and future. Perform analysis to identify redundancies and voids in SCLSIS process.
- **Process Improvement**
  - Evaluate proposed improvements to SCLSIS processes and procedures and make recommendations concerning implementation.
- **XRIC**
  - Standardize the methodology and processes to better inform the end-user of purpose of each XRIC, reduce duplication, inconsistencies and number of X-RICs within fleet community.
- **CPAR**
  - Define and address CSA system and CSA system interface issues and provide recommendations for problem resolutions/enhancements.

Ms. Linda Kennedy

Summary

- Working Groups should consist of adequate mix of CDM and ISEA representation to obtain maximum beneficial results
- Out-briefs
  - Action Item Status
  - New Action Items and Estimated Completion Dates (ECDs)
  - New Initiatives and any actions passed to other Working Groups

13 July 2004   Ms. Linda Kennedy   *Keeping America's Navy #1 in the Wo*
